Career Objectives

Final-year Computer Science(hons) undergraduate with a strong passion for programming and hands-on experience through multiple projects. Actively seeking an IT-related internship to apply my skills, contribute to real-world development teams, and gain valuable industry experience while continuing to learn and grow.

Projects

- **Hotel and Restaurant Management System-Group** **Dec2024 –Feb2025**
<https://github.com/YeshmiKavindya/Hotel-System>
Technologies: PHP, MySQL, Bootstrap, CSS
Developed a web-based hotel management platform to streamline key operations including room booking, restaurant management, guest check-in/check-out, billing, and reporting. Designed with a user-friendly interface to enhance the guest experience and improve staff efficiency across hotel workflows.
- **ToDo Task Mobile App – Individual Project** **Apr 2025 – Jun 2025**
<https://github.com/YasasFerreira/ToDo-Task-Mobile-App>
Technologies: React Native, JavaScript, Expo
Developed a cross-platform mobile application to manage daily tasks efficiently. Implemented core features including task creation, editing, and deletion with local data storage. Focused on a simple and responsive user interface to enhance usability and improve personal productivity.
- **Vehicle Selling Website – Individual** **Jan 2025 – Mar 2025**
<https://github.com/YasasFerreira/Vehicle-Selling-website>
Technologies: HTML, CSS, JavaScript, PHP, MySQL
Developed a responsive web platform for buying and selling vehicles online. Implemented key features such as user registration, vehicle listing management, and search filtering. Designed a user-friendly interface and integrated database operations to enable smooth interaction between buyers and sellers.

Work Experience

- **Internship Trainee**
Sampath Bank- Internship
Dec 2021 – Jun 2022
Colombo, Western Province, Sri Lanka.

Education

- **Bachelor of Science(hons) in Computer Science(Reading)**
Oct 2022 – Present
University of Jaffna.

Skills

- **Programming Languages:**
JavaScript, Java, Python, PHP, C, C++, MATLAB, Assembly (TASM), R
- **Libraries & Frameworks:**
React, React Native, Express
- **Databases:**
MySQL, MongoDB
- **Tools & Technologies:**
Git, Docker, Bootstrap

Certificates

- **Android Application Development**-Great Learning Academy
- **Python for Beginners**-University of Moratuwa
